name becomes in time a real asset to the owner and has a money value much like the good-will in other kinds of

Breeders Recognize Value of Name. In England many farms have borne distinctive names for years, which have become famous in connection with various products. This has been especially true in the case of certain and with it a desire to be protected runway. against others adopting the same name tation already established for it.

The United States government, through its patent office, which interprets the trade-mark and label copyright laws, is prepared to give this protection within certain limits. Some of the states have laws authorizing the registration of farm names with the state authorities, and no one else in that state is allowed to use the name. This is merely for use within that particular state. The United BEAMS TO ELEVATE CAR States patent office, however, is prepared to register farm names as trade- For Temporary Use, the Automobilmarks if they meet specified requirements. Scrubs, Crossbreds and Purebreds Are to Be Used.

ment of Agriculture Endeavoring to Clear Up Points on Feeding and Breeding.

Prepared by the United States Departme Although there is a higher percentage of purebred hogs in the country than of any other class of live stock. ment. And there is much to be known concerning the relative merits of scrubs, crossbreds and purebreds. To make some of the points clearer the try are finding it to their advantage United States Department of Agriculanimal husbandry division of the ture is starting a breeding and feedconnection with marketing their products. Provided the quality of the product is kept up, a reputation is pred sows. If appropriations provide quickly established for the farm and sufficient money it may be that the ef-

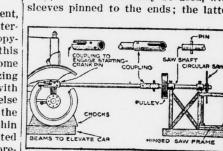

> Ten crossbred sows, of various breed mixtures, and ten scrub sows of the razorback kind will be used. Half of each of those groups will be bred to a purebred boar; half of the first group will be bred to a crossbred, and half of the other group will be bred to scrub. This same scheme of breeding will be carried on from generation o generation. Some of the offspring will be fed out and some of them will be kept for breeding before being fed out. Shoats from the different lots will be put in feed lots together and fed alike so that a fair comparison can be made. Some of these scrubs and rossbreds will be compared in feeding rials with purebreds raised on the deartment's experimental farm at Beltslle, Md. Some will be put into difrent experimental lots on various

Nearly everybody thinks the purered is superior to the scrub, but there is disagreement among farmers about the merits of purebred and crossbred feeders. The department hopes that in due time its experiments will give results that will answer any doubts.

very long and heavy feathers; the craze for "weeping plumes" has caught the commodity that makes the name fect of using crossbred and scrub we shall find that our hats have us again and when summer returns grown top-heavy, notes a Paris fashion correspondent in the Boston Globe. It is a real pity that extravagance always enters on the scene when a really pretty style is in question. It is partly the fault of the great Paris milliners and dressmakers, partly the fault of certain amongst their clients; the idea seems to be that one cannot have too much of a good thing. But this is a great mistake. However, we must take the world of fashicu as we find it, hoping always that individual women of fine taste will have a really good influence. Lewis continues to be a tremendous favorite with women who like to look ultra smart and out of the ordinary. I do not mean to say that this milliner goes in for intentional eccentrici-

> on novelty of outline and of material for his best effects. He rarely goes in for elaborate trimmings, but always for unusual designs. He is making some specially successful Chinese toques this season. It is true that we have had the Chinese toque with us for many months past, but Lewis has succeeded in giving a new aspect to an old and cherished friend. For example, a model of this order

was covered entirely with narrow waxed ribbons in graduated shades of blue; the ribbons were cleverly at-An arrangement whereby an automo- tached to the pointed crown and then breeders of cattle. when you want

that next job of

Printing

You will get first-class

work, and you will get

it when promised, for

having work done

when promised is one

of the rules of this office.

If you prefer, send the order by mail or bring

it to the office in person.

Let Us Show You

What We Can Do

We know says that it's his

job to please his customers.

He is 100 per cent right. It's

our job to please merchants

by providing the kind of

printing that is wanted. Try

us and see what we can do.

We Make Good

You Say You Can't

Advertise?

That's what others have

said and all of a sudden

found some competitor

was doing what they

thought they couldn't do.

And getting away with it.

Get the bulge on your

competitors by telling

your story in an attractive

manner so it will be read.

You'll get the results.

We Are Anxious to Help

Printing

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

HE kind of printing that

pays dividends is the kind you should have.

Pale, muddy, poorly arranged

printed matter is worse than

none. The quality of your

the quality of your stationer

inferior printing gives an

npression of cheapness tha

good printing carries with it a desirable suggestion of quality.

We produce only Quality

Printing. Whether you want

an inexpensive handbill or a letterhead in colors, if you

order it from us you will be

we have the equipment and the "know how" that enables

us to get out really good print-ing—printing that impresses people with the good taste of its users. That is the only kind of printing that

ays

business is often judged by
